

FEDERAL REPUBLIC OF SOMALIA SOMALI DISASTER MANAGEMENT AGENCY (SoDMA)

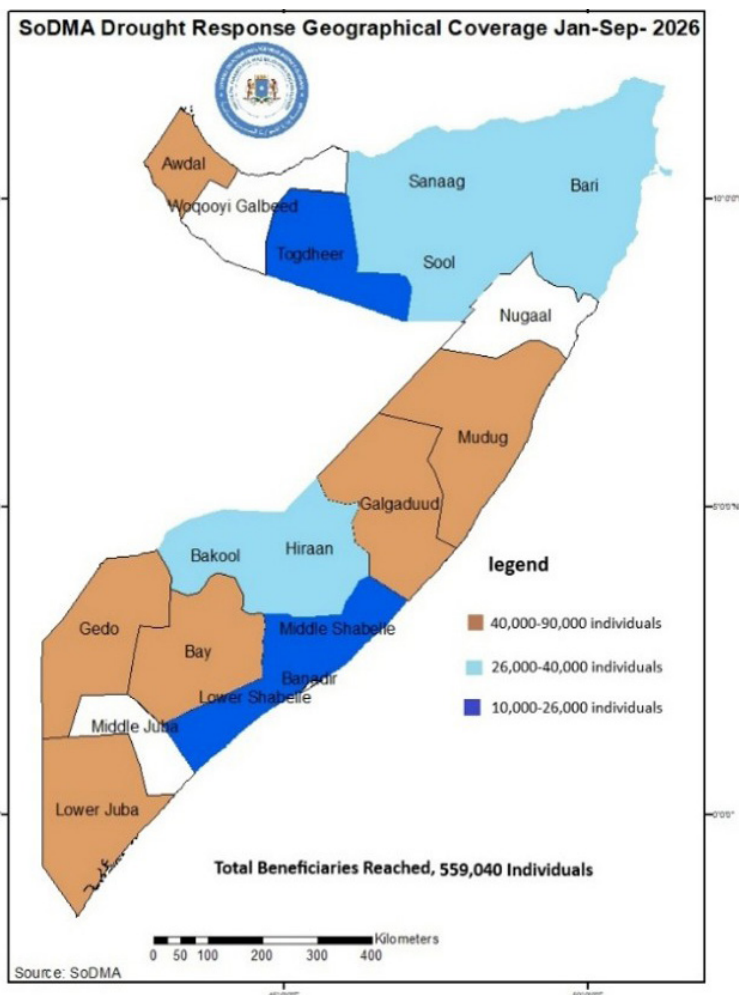

SOMALIA DROUGHT RESPONSE REPORT

JANUARY-
SEPTEMBER
2026

The Somalia Disaster Management Agency (SoDMA) provides an overview of its response to the drought situation, including the locations where assistance was delivered, the number of people who benefited, water trucking operations, and other forms of assistance provided from January to September 2026. During this period, SoDMA has been responding to drought conditions affecting different parts of the country, giving priority to saving lives, protecting livestock, and reducing the impact of the drought.

In response to the successive seasons of inadequate rainfall, SoDMA initially provided a USD **700,000** cash contribution to the Drought Response Committee of the Somaliland administration. The funding was intended to support an immediate emergency response for vulnerable communities living in the affected areas.

From January to September SoDMA reached **559,040 people** living across **90 locations**, comprising **60 settlements and 30 districts**. The assistance addressed critical needs across **14 of Somalia's 18 regions** through distribution of Food Assistance.
